Attached is the document we spoke of – the “updates to emissions” page. It contains where we know a facility has reduced emissions since 2014 (Sterigenics is in this bin) and other updates. This will be on the public-facing website.

I have spoken with Cindy about changes for the talking points.

And, I will look at the Map App and website later this afternoon, as we discussed, for any place the MSA name appears.

Thanks,
Darcie
